Watch Them Whiten As the film disappears. You will know then what clean Your teeth are not clean. You can feel a slimy film. Probably the film has dimmed them—some tartar may

Your present methods of brushing do not end film, and that is the teeth's great enemy. Now we ask you to try a new method—try it at our cost—and compare results.

Film Can Be Ended Now

Most tooth troubles are due to that film. It is film that discolors - not the teeth. It is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay. Millions of germs breed in it. They, with tartar, are

the chief cause of pyorrhea. The film clings to the teeth, enters crevices and stays. Brushing does not end it. No ordinary tooth paste can dissolve it. Night and day it may do a ceaseless damage. And millions find, as a result, that ordinary brushing

does not save the teeth. Now dental science, after many years, has found a film combatant. The facts have been proved by convincing clinical and laboratory tests. The method is today ap-

proved by leading dentists everywhere. For home use this method is embodied in a dentifrice called Pepsodent. And we are mailing 10-Day Tubes to all who ask, to let everyone see its effects.

The Pepsin Method

Pepsodent is based on pepsin, the digestant of albumin. The film is albuminous matter. The object of Pepsodent is to dissolve it, then to day by day combat it.

Science has found a harmless method of activating pep-in. The usual method is an acid harmful to the teeth-So pepsin long seemed barred. Now pepsin can be constantly applied-can be left to

linger between the teeth. Now you can every day combat this film in a simple, dainty way. Millions of teeth are being cleaned in this new way. You can see them everywhere - white, glistening teeth. Send this coupon for a 10-Day Tube. Note how clean

the teeth feel after using. Mark the absence of the slimy film. See how the teeth whiten as the fixed film disappears. Learn what clean teeth mean—see how they look. Then decide for yourself between the old methods and the new. Cut out the coupon now.
